

Tax ID Search

The format of the Tax ID varies from county to county. You *should* enter the Tax ID according to the format of the county you are searching. The **"Help?"** link on this page takes you to the section of the *FAQ (Frequently Asked Questions)* that talks about Tax ID number formatting. It also lets you download the Tax ID format file that contains the format variations for all counties Realist® covers. (see right / center for CincyMLS.net county formats)

Note! Realist® has been updated to accept multiple formats for Tax ID numbers. However, it is recommended that you become familiar with the county formats if you intend on searching by Tax ID numbers frequently.

Enter a complete Tax-ID number to find the property that is the exact match.

There are 2 useful wild card options when searching by Tax ID number. Realist® automatically does a "starts with" wildcard search if you enter only part of the Tax ID number.

You may also perform a search on a range of Tax ID numbers by entering a portion of the number and the range in parentheses. The portion of the APN you enter must end with a format break.

For example, if the Tax ID format in the county is:

123-4567-891-2345

you could search on any one of the following:

- ▶ 123-(4500-4520)
- ▶ 123-4567-(890-899)
- ▶ 123-4567-891-(2345-2349)
